“My interview is on Thursday, and I freeze when I talk”

93%

of Americans have felt anxious before a job interview

1 in 3

US adults are afraid of public speaking

63M

US hires a year — each starts with an interview

“I’m terrified of public speaking and need a legit plan to get better.”

“...are there any AI coaches or tools that actually work for this?”

— a Reddit user before a wedding toast and work talks, r/Advice, May 2026

The need comes in waves: it peaks before the date and drops after → our risk is retention, not demand

JDP survey, 2,018 respondents, Jan 2020 (93%) · Chapman Survey of American Fears 2025 (33.7%) · BLS JOLTS 2025 (62.97M hires) · quote: reddit.com/r/Advice, 4 May 2026 (spelling tidied)

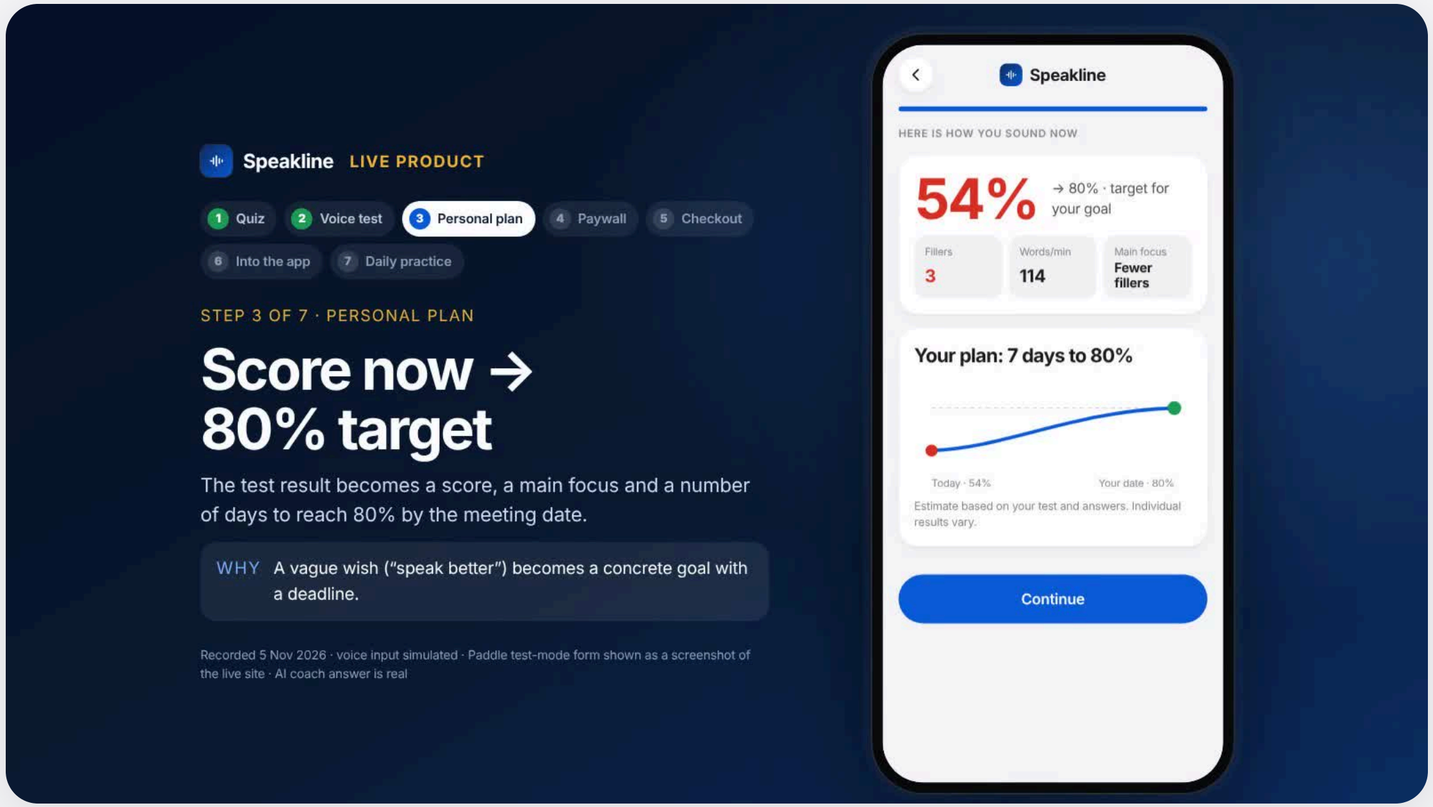

8 players studied: people already pay to get ready
